How to Trade

When contacting other members with the intention to trade, etiquette requires that you identify yourself as an Empire Trade member and agree to the trade percentage prior to purchase. Once you negotiate your purchase with another Empire Trade member you have the option to complete the transaction either online via the Internet, or via your Empire Trade cheque book.

Your online trade account operates similarly to your online regular bank facility. Access your account by selecting Members' Login from the Empire Trade homepage on the web at <http://www.empireXchange.com>. Transactions below T\$3000 can be completed immediately online. The Buyer simply selects "Buy" under the "Transactions" heading, completes the requested information (both Buyer and Seller details), and notes the transaction authorisation number issued on the screen. This is your record that the transaction has taken place and guarantees transfer of the funds from the Buyer's account to the Seller's account. The Seller is also given this number as a record of their transaction. Online members can view their statement of account and transaction history at any time from this Members' Login site. Computers are made available at Empire Trade offices for members to access their account details and current membership directory. This service is free of charge.

Your Empire Trade cheque book operates in a similar way to your regular bank cheque account.

As a Buyer, simply complete your cheque slip with the required information, and exchange it for the goods or services you have purchased. Ensure you have enough funds in your Empire Trade account to cover this purchase. You will be required to pay to the National Agent an amount in cash equal to 6% (incl GST) of the T\$ component of the purchase of the goods or services within 7 days of the transaction.

As the Seller, you will need to have the transaction authorised when it is T\$200 or above. Simply call 0800 287233 for an authorisation number which must be included on the Buyer's cheque slip. Confirm all the details have been completed correctly on the cheque slip before completion of the transaction. This cheque slip must be mailed or delivered to the National Agent within 7 days of the transaction. The trade dollar amount is then credited to your account.

Trading Internationally

Members who are travelling overseas to countries where Empire Trade is established can contact their National Head Office to request a special International Empire Trade Cheque Book. For each cheque slip issued, the member must have \$200 in credit in their account, and a direct debit authority must be established for the automatic payment of international transaction fees, or these fees can be prepaid. Regardless of which country the member travels to, they simply complete each cheque slip in the currency of the country where they are purchasing, remembering to include the currency symbol, and gives the cheque to the seller, as they would in their home country.

The Seller is responsible for obtaining any authorisation required under their National Trading Rules.

Cheques must be forwarded to the national head office within 14 days of receipt. At the time of processing, the exchange rate is drawn from the reputable, live currency site, www.xe.com. In order to minimise the impact of fluctuations in the exchange rate, international cheques are valid for 3 months only from the date of issue. Where cheques are received after the 14 day period, any loss due to a variation in the exchange rate may be carried by the seller.

Full details of the international transaction are displayed on the member's statement of account which can be viewed online.
