Notes:

- Please check your entries carefully and notify Head Office of any required changes.
- Check your categories are correct.
- Always identify yourself as an E Banc Trader before beginning a transaction.
- To ensure trading flexibility on a deal by deal basis, trade percentages are at the discretion of the business owner. Inflated pricing is in breach of our rules and regulations.
- Advise Head Office if your details change or you sell your business.
- Notify Head Office if your regular trading terms change.
- Please phone Customer Support if you are experiencing difficulties sourcing or locating goods and services, as some members prefer to be broker driven, and do not display in the directory.
- Please forward all E Banc Trade cheques, both authorised and unauthorised, to Head Office as soon as possible, making sure you have completed all sections on the cheque form.

Keep your Membership Directory updated:

The E Banc Trade membership directory is updated daily. The most current version is available online from the corporate website. Members who elect to pay the monthly stationery fee will receive a list of new members each month.

A listing of all members can be displayed from the corporate site, and the membership base can be searched by category and location, however full contact details are only available from the directory links when you log in to the member's site.

By logging in to the member's site you can search by business name, location and a single category or multiple categories. You can also download the entire membership directory, or select which area and which categories you wish to download.

You can order a current copy of our Australian Membership Directory simply by completing the order form on the inside back cover, and mailing or faxing it to Head Office.
